DECLARATION

I Hereby declare that the above information is true and Correct to the best of My knowledge

PROJECTS

MERN-Ecommerce Website

Developed a full-stack MERN e-commerce application with user authentication, product management, cart, and order processing. Implemented REST APIs, MongoDB database, and a responsive React UI.

MERN-Chat Application

Developed a real-time MERN chat application using Socket.IO with instant messaging and user authentication. Implemented private chats, online status, and a responsive React UI.

MERN-User Authentication System

Developed a MERN-based user authentication system with secure signup, login, and role-based access. Implemented JWT authentication, password hashing, and protected routes.

MERN-Thinkboard(CRUD)

Developed a MERN-based Thinkboard application with full CRUD functionality for creating, editing, and managing notes. Implemented RESTful APIs, MongoDB data storage, and a responsive React interface.

INTERNSHIP

Beleaf Technologies Software Company, Madurai

- Internship in Full-stack development (3 Months) Completed a 3-month internship in Full-Stack web

Development, working on real-world applications using the MERN stack.
